Evaluation and Exit Card

Worksheet 3. Track C, 34:00 to 45:00. Hand this in at the door.

Name: _____ Table: _____

This card has two jobs. Job A: judge your tool, in the room. Job B: write down what you leave with, before you go.

Job A: Evaluate your tool

Tick each check. If you cannot tick one, write why, in one line.

☐ Does it do the job?
☐ Is the output accurate?
☐ Is it fast enough?
☐ Is the access narrow enough?
☐ Would you trust it with this task again?

Job A, continued: Green / Yellow / Red

Golden rule: personal data, financials, and unreleased work never go into a public tool.

Example: GREEN is a meeting time. YELLOW is a client name, check first. RED is a bank password, do not share it.

☐ GREEN: Safe to share.
☐ YELLOW: Check first.
☐ RED: Do not share.

Five items we sorted (write the colour next to each):

Job B: What you leave with

☐ A personal task, with a chosen tool and a written “good looks like” definition.
☐ One improvement, with a measure.
☐ A value and implications line, with access narrowed.
☐ One next step.

Job B, continued: 30-day plan, one task a week

☐ Week 1: drafting
☐ Week 2: summarizing or research
☐ Week 3: repetitive-task mapping

My next step is _____, by _____.

Tell your manager what changed, with one number. Example: a report that took 2 hours now takes 40 minutes.
