Worksheet 3 — Evaluation & Exit Card

Track C • 34:00–45:00 • Hand this in at the door.

Name: _____ Table: _____

Evaluate your tool — five checks

☐ Does it do the job?
☐ Is the output accurate?
☐ Is it fast enough?
☐ Is the access narrow enough?
☐ Would you trust it with this task again?

Green / Yellow / Red — sort before you paste

Golden rule: personal data, financials, and unreleased work never go into a public tool.

☐ GREEN — Safe to share.
☐ YELLOW — Check first.
☐ RED — Do not share.

Five items we sorted (write the colour next to each):

Exit checks — what you leave with

☐ A personal task, with a chosen tool and a written "good looks like" definition.
☐ One improvement, with a measure.
☐ A value and implications line, with access narrowed.
☐ One next step.

30-day plan — one task a week

☐ Week 1 — drafting
☐ Week 2 — summarizing or research
☐ Week 3 — repetitive-task mapping

My next step is _____, by _____.

Tell your manager what changed, with one number. Example: a report that took 2 hours now takes 40 minutes.
